SPECTACULAR ADVANCE ON KHARKOV FRONT

Reconnaissance

By HENRY SHAPIRO

MOSCOW, May 19. (BUP)—Front line dispatches today said that Coe's cavalry had captured an important fortified town on the approaches to Kharkov and that the Red army was smashing furiously into enemy strong points on a nearby strategic road.

The Germans, rushing poorly trained, young reserves into the battle, were said to have been caught between two fire attacks, where they were being hit by Russian attacks from the front and rear.

London dispatches said that the battle for the strategic road was being fought around a high way which was controlling the main road network south of Kharkov, close to the city outskirts. It was believed the Russians were attempting to cut off an important avenue for German retreat or for bringing reinforcements to Kharkov.

NETWORK OF FORTS

Dispatches said a force battle was taking along a road which is being built around a high way which was controlling the main road network south of Kharkov, close to the city outskirts. It was believed the Russians were attempting to cut off an important avenue for German retreat or for bringing reinforcements to Kharkov.

THE WAR

At A Glance

Russia—Red army compels German to yield ground before Kharkov. Russian advance 30 to 40 miles.

Britain—Large U.S. contingent arrives in Northern Ireland; parliament debate second front question.

China—Chinese forces big Japanese drive against them; enemy said to be concentrating air strength in Hubei.

Burma—R.A.F. from India bases strikes again at occupied Burmese port of Akyai; British troops continue withdrawal to India.

India—Japanese report they have bombed India-Chinese communications line, blasting rail installations in Aizow province.

Australia—Allied aircraft possibly destroy two Japanese transport ships; Japanese make air attack on Port Moresby in British New Guinea.

Vichy Relations Stay Unchanged

OTTAWA, May 19.—(CP)—The Canadian government has decided not to make any immediate change in its present relations with the Vichy government. Prime Minister King told the House of Commons today.

British Disperse

AXIS LABOR GAINS
CAIRO, May 19.—(AP)—Axis labor gains engaged on military work in the Libyan desert were dispersed by a British patrol yesterday, general headquarters announced today.

BRITONS LEAD GUERRILLA RAIDS

Fierce Karen

Attacks Planned To Keep Foe Busy In Burma While Counter-Stroke Prepared

By DANIEL DE LUCE
CALCUTTA, May 19.—(AP)—Fierce Karen tribesmen commanded by British officers were reported yesterday striking out from jungle hideouts in the highlands of Burma's conquered southern Shan states in guerrilla attacks on Chinese-Japanese convoys.

The guerrilla campaign, undertaken by 5,000 tribesmen under British officers, was organized even before the fall of Burma two months ago. Their leader is a tall, religious colored man in a white, philosopher and expert on the Par East. To his comrades he is known as "Spooky".

Against the time when the Japanese might overrun the area, "Spooky" enlisted thousands of local Karen villagers. On the British government's promise to recompense them for all losses after the war, the Karen and their women and children into the northern, mountainous areas, where they burned their homes and withdrew to the jungle.

HIDDEN SUPPLIES
Col. Spooky arranged hidden supplies for his guerrilla army, some equipped for transport and some wireless sets for communication. His staff of 200 men, mostly officers were native tribes and turban.

Ridges showing a half rising sun and the Karen drum are the only insignia the troops use. A price of 500 rupees was set for each Japanese officer whose capture was confirmed. Captures for Japanese non-commissioned officers or privates.

Spooky, who was visited by this correspondent at his secret mobile headquarters, laughingly said that he was the "Laurence of Burma". He expressed hope his guerrillas would keep the Japanese busy while the United Nations prepared a counter-offensive to retake Burma.

Home Front Of Nazi Reich May Bring Downfall

Continued from Page One
munitions in the first place. The attack on food, which at high tension, inadequate rest and reduced diet also is taking its toll. Women occasionally collapse at the assembly lines, and there is a loss of 200,000 men daily by those who feel "too low" to work. But Adolf Hitler has decreed there is no time for vacations for the overworked.

R.A.F. ADDS PROBLEM
The Royal Air Force added to Germany's railways with the numerous attacks on concentration points and every bomb that hit a freight train narrowed Hitler's victory margin. Politics force him to pour transport. Coal couldn't be distributed properly, and the two eggs each German is allotted a ration, couldn't be shared with regularity. Fertilizer and seed were in short supply.

Germany's oil supplies are a military secret but it is a reasonable estimate that 112,000 tons of oil were needed yearly before the Soviet campaign and if the tempo of the Russian fighting were maintained, twice that amount would be needed. Germany's oil fields yield only about 1,000,000 tons and another 4,000,000 is obtained by hydrolysis. The remainder must come from Rumania, and that is less than it consumes and that it will be unable to make to capture the Caucasus fields.

Tank Production
NEW YORK, May 19.—(AP)—W. H. Harrison, production director of the War Production Board, said yesterday more tanks were produced in the entire United States last week than in the entire period of the First Great War. He did not give the comparative figures.

Weather
THE WEATHER
Highest temperature during the 24-hour period, 61 to 64, in the city.
Lowest temperature during the 24-hour period, 41 to 44, in the city.
Precipitation during the 24-hour period, 0.10 inch.
Wind, light to moderate, variable.
Sun, rose Wednesday 5:30, set 8:30.

ROAD REPORT
A.M.A. Safety Section: Double parking is dangerous and means halting the road.
Monday's road report: All district roads in northern Alberta are open except for heavy road near St. Paul.
Friday, May 22: D. Company will arrive at the highway near the intersection of the new highway. Later a road will be made at the intersection of the new highway. A.C.A.F.

FORECAST
Alberta—Partly cloudy today with light scattered showers, Wednesday fair, not much change in temperature. Peace River District—Mostly fair today and Wednesday with light scattered showers. Not much change in temperature. Calgary—Partly cloudy today and Wednesday with light scattered showers. Not much change in temperature. Edmonton—Partly cloudy today and Wednesday with light scattered showers. Not much change in temperature. Winnipeg—Partly cloudy today and Wednesday with light scattered showers. Not much change in temperature.

Italian Press Makes Demand French Areas

BERNE, May 19.—(AP)—The Italian press last night demanded territory from France in the conquest terms and insisted that the transfer be made immediately, regardless of the length and outcome of the war. The insistence of the Fascist press was the strongest since Italy, Germany and France signed the armistice nearly two years ago.

The press campaign grew wide open on the question of Pierre Laval's efforts to bring France into full cooperation with the Axis. It revealed Italy's impatience to have her share in the war gains as a reward for joining Germany in the conflict and that Germany was anxious to get in to Italian claims.

SUPPORT FRENCH
In fact, the campaign even suggested that Germany might incline toward support of the French view and that Italy was anxious to get in to Italian claims.

FIVE-POINT PROGRAM
Calling on Monday's conference on farm debts following Premier Abernethy's five-point program designed to give farmers debt relief and improve agricultural conditions in the province.

In his statement, published earlier this month, the premier urged that the government should take steps for economic improvement in agriculture, which he termed the basic industry of the province.

Following is the five-point program:
1.—The 1934 price level to be taken as the basis for guaranteed prices for all farm products. Existing prices to be maintained until delivery, to bear the same ratio to the 1934 price as the current price level of secondary products bears to that which existed in the same year.

2.—A definite loan and livestock program to be established.
3.—Adequate wage and cost credit facilities for agriculture.
4.—An equitable re-adjustment of all debts on a three per cent basis.

5.—By creating a unified effort to better economic conditions. Premier Abernethy declared in his statement: "Adequate wage and cost credit facilities; security in the home and in business; security against fluctuations in old age and sickness and in unemployment; adequate and educational services—all these are vital issues and their achievement is centered in providing for the whole economic structure with the strong and enduring foundation of a stable agriculture."

DELEGATES WELCOMED
Delegates to Monday's conference were welcomed by Premier Abernethy, who presided, and other members of the cabinet. In addition to Mr. Maynard who presided, were Hon. D. Bruce MacMillan, minister of agriculture, and Hon. S. L. Low, provincial secretary. Mr. Abernethy, minister of agriculture, also attended.

FIVE GROUPS
Representatives of the five farm organizations attending the conference were:
1.—Farmers' Federation of Agriculture.
2.—Hatchinson, Duhameil, chairman; N. K. Priestley, Calgary, vice-chairman; J. L. MacMillan, Calgary, secretary.
3.—United Farmers of Alberta: Robert Gardner, Calgary, president; J. H. MacMillan, Calgary, vice-president; H. W. Church, Calgary, secretary; H. W. Church, Calgary, secretary; H. W. Church, Calgary, secretary.

Today's War Moves
Continued from Page One
to that at Strava Russa, far to the north, where the German army has been encircled and will be defeated by military force. There is no reason to "leave the Russians" or to hold back in the hope that the Axis will crack this year by internal collapse. Any such belief certainly was not encouraged by the reports of United Press correspondents who returned from the peninsula. By cutting it, the Russian army is able to maintain communications to the German forces there. It is sufficiently strong, they can drive southward towards the narrow bottleneck of the Perekop Isthmus, which connects the Crimea with the mainland, and isolate the Germans on the peninsula.

ARMY AND NAVY
The pouring of American troops and equipment across the Atlantic shows that the Allies are convinced that Hitler must and will be defeated by military force. There is no reason to "leave the Russians" or to hold back in the hope that the Axis will crack this year by internal collapse. Any such belief certainly was not encouraged by the reports of United Press correspondents who returned from the peninsula. By cutting it, the Russian army is able to maintain communications to the German forces there. It is sufficiently strong, they can drive southward towards the narrow bottleneck of the Perekop Isthmus, which connects the Crimea with the mainland, and isolate the Germans on the peninsula.

Dutch People Aiding Allies In Big Fight

Three per cent of the Dutch people were fighting when Germany invaded Holland, but when the British and United Nations' armies strike back on the continent of Europe 98 to 99 per cent of the people of Holland will be willing, ready and willing to do all in their power to help the Allied cause. Dr. Benedictus H. Saget, noted Dutch doctor and lecturer, stated Tuesday on his arrival here to address a meeting Tuesday evening at the Dutch church under the auspices of the Navy League of Canada.

Dr. Saget said the Dutch people have steadily resisted all attempts to force them to join the German cause. He said the Dutch people have been fighting in the Dutch resistance to the German armies of occupation in increasing numbers. Dr. Saget stated, "The Dutch people are either strangers in the district or can speak German when asked questions by Germans."

SABOTAGE RIFE
Although Dutch workmen have turned out in service to turn out munitions for the German war machine they quietly go about their work, but the series of unexpected accidents in plants, the case with which repair work done by Dutch workmen again becomes sabotage in increasing numbers. He added that 150,000 Dutch workmen had been drafted into the German army of workers taken from Holland.

Economic conditions in Holland were extremely bad and the people were feeling the pinch of hunger. Tuberculosis cases had appeared in increasing numbers, and it was certain that this disease would take an even greater toll of dead men in the last war.

Dr. Saget, who was decorated by Queen Wilhelmina for his escape from Holland in an unseaworthy outdoor motor boat, was a member of the town council of Amsterdam, and a member of the provincial council of North Holland, prior to the German occupation. He narrowly escaped arrest by the Germans when he was in the Netherlands.

ON MERCHANT SHIP
Since he left Holland in June, 1941, he has been a doctor on a Dutch merchant ship, and recently sailed the tour of the American continent, during the summer of the Netherlands government. He is now touring Canada in connection with the Director of Public Information, Ottawa.

Dr. Saget will address a joint meeting of the Men's Canadian Club and the Dutch Canadian Club at the Hotel at noon Tuesday, and will speak at the meeting of the Edmonton Branch, Canadian Institute of International Affairs at the Corona Hotel Wednesday evening.

Timoshenko Drive On Kharkov Not Likely 'Peter Out'

LONDON, May 19.—(CP)—Marshal Semyon Timoshenko's offensive in the Kharkov area is not "the sort which begins with a bang and then tapers out," Paul Winterston, British Broadcasting Corporation correspondent, said in a Moscow dispatch quoted last night by the BBC. The attack is steadily growing in intensity and scope and may develop into a general offensive in this sector," Winterston said. But he added there was still a "hard, deep core" of enemy resistance to penetrate.

Red Cross Total
Now \$2,500,000
TORONTO, May 19.—(CP)—Canadian Red Cross Society headquarters here announced yesterday that a total of \$2,500,000 had been subscribed in the nation-wide appeal for \$5,000,000. Officials said the amount is chiefly from cities and towns, because rural areas have not made a complete report.

Getting Along On Smaller Incomes
The Family Man's Position:
"I have no kick on what the Government needs of my income to win the war. My problem is to get along on what is left without neglecting the welfare of my family. Since I've been forced to buy my budget, I'm more dependent on life insurance than ever."

The London Life Insurance Co. is one of the few companies that have to get along on smaller incomes by low premium plans containing special interchange privileges. For example, a man age 30 could purchase \$10,000 Earning Power 15 Year Term insurance for a yearly premium of \$6.50 (less annual dividend). Five years later he could use the interchange privilege to advantage and obtain Ordinary Life or Endowment insurance.

Ask one of our representatives for full information.
The reduced income figures at the top are based on Dominion Income Tax rates and National Defence Tax for married men with no dependents.

Mr. Sobel opened the Jack of Diamonds and dummy won with the nine of spades. The declarer, dummy, and Fleishman made correct play of the queen. It is important in this position, where declarer obviously is forced to use against the ten, to conceal position of the ten. Declarer used the spade queen to hold the diamond combination then

re. Sobel opened the jack of diamonds and dummy won with the nine of spades was led to dummy, and Fuchs made a correct play of the queen. It is important in this position, where your adversary is forced to lose against the ten, to conceal the position of the ten. Declarer led the queen, and dummy a diamond continuation then led out his king.

Dummy was put in with a club and a second spade. When Fuchs played low, declarer took his luck. When the smoke of battle died, the defenders had won two three diamonds and four clubs, setting the contract five

Dodgers Seven Games Ahead Indians Creep Within Few Points Of Leading Yankees

CLEVELAND, May 19.—(AP)—Cleveland Indians Monday slammed their way to within 13 percentage points of the American League-leading New York Yankees in a 14-hit attack that smothered Philadelphia Athletics 7-4.

Chubby Dean held his former teammates to six hits to chalk up his third victory without too much trouble, although he granted nine bases on balls.

Indian batting honors were shared between Kenny Keltner and Les Fleming. Keltner rapped a single, a double and a triple in five times at bat and drove in two runs. Fleming had a perfect day with a double and two singles in three trips.

WHITE SOX MOVE UP
CHICAGO, May 19.—(AP)—Outfielder, White Sox yesterday lifted Chicago out of the American League cellar for the first time in more than three weeks by smothering a home team on one out in the ninth inning to give the White Sox their third victory in four games.

The blow-off relayed Bill Zuber, who pitched a perfect game, to the Athletics in one of six shutouts in his last game.

Girl Caddies At Halifax Club
HALIFAX, May 19.—(CP)—Halifax golfers are becoming convinced that the fair sex has the clubs over the fairways.

At Ashburn Golf Club here, where girl caddies are becoming common, last year there were 15 of them; this year the number is expected to be increased.

Kes Zabawski, club professional, claims the girls make better caddies, in some respects, than do boys. They are a "more conscientious," he said.

—“and if the fuselage is riddled and the engine shot off and the parachute won't open, what gadget do I push?”

Army Viewpoint Changed? Louis Probably Through With Fighting For Duration

WASHINGTON, May 19.—(AP)—The army has grown extremely cool toward the idea of Joe Louis defending his heavyweight championship this summer.

In all probability, Private Joe has done his last serious ring fighting for 17 years.

The generals who decide such things have not yet given Private Mike Jacobs the nod, but he received a broad hint when he was here the other day.

The army feels, frankly, that it is time for Louis and all the lesser prizefighters in the armed forces to settle down to their soldiering.

There is a war on, it was pointed out to me by a number of ranking officers, and there has been no indication that the country's morale would be keener-up by a heavyweight fight.

Louis, they felt, would best utilize his great talent by giving exhibitions in training camps for the country, and in between such bouts diligently continuing his training for the battlefield.

Notch Defeats Windsor Boxer
DETROIT, May 19.—(AP)—Carmen Notch of Pittsburgh last night won his second straight decision over Harvey Duba, Windsor, Ont., in a 10-round welterweight bout at Arena Gardens, but didn't get the last six rounds with one eye.

Notch won five rounds to four for Duba. One was even. There were no knockdowns.

Notch, who shaded Duba last month in Toledo, weighed 147 lbs. Duba weighed 141.

In 1940, Louis' just crop was 12, 282,490 bales.

Today's Sport Parade Lee Savold To Fight Nova; Notre Dame Schedule Hard

By JACK GUENTHER
NEW YORK, May 19.—(BUP)—Wrapping up a few loose threads:

Boxing—Be prepared for another episode of Algonquin epic if Lee Savold upsets Lou Nova in their heavyweight meeting at Washington on Thursday, Nov. 26.

The Nova, 34, boxes in a veteran of 10 years of battling and has been up and down the ladder often since a ceiling paper. He quit boxing four years ago and for more than a year supported his wife and two children by working as a dock-hand, construction camp hauler and—of all things—a bartender.

His weight rose from 160 pounds to 225 before friends encouraged him to come back. Now he is rolling along again at a trim 160 and knitted together an impressive number of knockouts. It is almost incredible that a man who has been confronted with so many setbacks should be back at the top.

—but here he is.

Actually, his chances of winning depend on the reactions of his feet. Louis hasn't fought since 1924, and the road show may have made him a little rusty.

Football—A Indiana black-haired gentleman from Chicago has arrived in town bearing the first report on Notre Dame's probable 1942 football fortunes and suffering from one of the great emotional conflicts of our time.

It is Joe Petruzzi, for 10 years publicity head of the Irish. He says Notre Dame should have as good a team as that which went undefeated last year but which the time has now given at the prospect of triumph to come he remembers the schedule.

Notre Dame has dropped Arizona, Carnegie Tech and Indiana and retained Northwestern, Army, Navy, Southern California, Georgia Tech, and Illinois and has added such comparative newcomers as Stanford, Michigan, Berkeley, Wisconsin and—oh yes—Great Lakes. There isn't a brazier or an up-dated to themselves. They have paid their way on all charity benevolence.

The championships are being whittled into something approaching a silly bore production. This is a healthy sign, at least, and the personal Ed Oliver will participate in the P.A. title show at Atlantic City is good news for golfers. Both boys were granted army furloughs and will enhance the importance of the tournament which will probably be the last of big tournaments for quite a while.

Baseball—Corcoran's announcement that defending champion Vic Oliver will participate in the P.A. title show at Atlantic City is good news for golfers. Both boys were granted army furloughs and will enhance the importance of the tournament which will probably be the last of big tournaments for quite a while.

Royal Bowlers Start Saturday

The greens of the Royal Lawn Bowling Club will be opened for play for season 1942 on Saturday afternoon, May 23, at 2:30 p.m., when the honorary president, Hon. W. A. Pajlow, M.L.A., will officiate at the opening ceremonies.

All members of both clubs are requested to be present and jinx game will be played until 5:30 p.m.

On Monday, May 25, an open mixed competition will be played and rinks will be drawn from the individual entries received at 1:00 p.m. and all members who desire to take part must be present at the green before that hour.

A light lunch will be served by the club during the afternoon. The entry fee for this competition will be Ladies 35 cents, and gentlemen 50 cents.

Angus B. McKenzie is president of the Royal Lawn Bowling Club, while Robert McVicar is vice-president, and Wm. McGruther is again secretary.

Jack Troil won the 100-yard dash in 27 and Dick Browning the 200 in 21.2. Other times and distances were correspondingly astounding. Check these marks under the same banner. The Trojans are literally terrific and are absolutely certain to win the N.C.A.A. championships for the eighth straight year unless their bow blow.

Against Stanford, for instance, the Trojans won 13 of 15 events and probably would have won as many from any other college squad.

Carl Meritt threw the shot 51 feet, 10 1/2 inches and doubled in the discus with a heave of 160 feet, 10 inches. Leroy Reed straddled the mile in 4:17.3 and the two-mile in 9:50.4.

Dahlgren Deal Is Called Off

ST. LOUIS, May 19.—(AP)—St. Louis Browns, first baseman recently purchased by St. Louis Browns, has been returned to Chicago of the National League. Dan Barone, president, announced last night.

Barone said the deal was called off because of a disagreement between the clubs over terms in the sale concerning Dahlgren's possible entry into the food services.

Liaison Officer
ALLIED HEADQUARTERS, Australia, May 19.—(CP)—Gen. MacArthur's headquarters announced today that Commandant Bernard Laporte of the French Army had been appointed liaison officer at general headquarters for the headquarters of the Free French high commission for the Pacific.

ATTACK IN WEST

Great U.S. Armored Force Arrives In North Ireland

Vichy Rightists Attack Britain

WASHINGTON, May 10.—(AP)—The United States yesterday added ammunition to the "second-front" spectacle haunting Hitler by landing in northern Ireland the largest army force yet dispatched to the British Isles, armed for offensive action.

Thus the possibility was raised that Hitler might be attacked from the west while locked in a death grasp with Soviet Russia on the east. Whether or not the United States and Britain intend to launch such an offensive in the near future, last night's announcement of the landing seemed calculated to add to the German war-thinks it is giving them plenty to think about in the Balkan area.

The disclosure was the latest in a week-end succession which, whether intended or not, must bear heavily on the nerves of the Axis portents.

First, there was the word that the United States will cut down on its construction of new arms plants because available raw materials are needed by those already in operation. Since the United States is known to have enormous reserves of critical materials, the plan implies that that war weapons now are being poured out in a tremendous stream.

Second, there was the declaration from the White House that cargo shipbuilding has become an anti-labor and a breach of schedule.

Third, the army and navy issued a lengthy joint review of the war which referred to the latest five months as a "preparatory phase" in which they argued specifically that the high command believed this phase is coming to an end.

A terse war department communique said the force landed in the British Isles was "substantially larger than two previous contingents and included armored units."

It was not clear whether the force was being sent to the British Isles to assist the British in their operations against the Germans, or whether it was being sent to the British Isles to assist the British in their operations against the Germans.

Primate Defends R.A.F. Bombings

LONDON, May 10.—(CP)—The Archbishop of Canterbury defended today the R.A.F.'s heavy bombing of Liekebeck and Rostock as "part of the bitter price paid for aid to Russia" and criticized the emphasis in some quarters on the civilian casualties and destruction of historic buildings.

The archbishop, Dr. William Temple, entered last month, spoke in his first address to the full synod of the Canterbury convocation.

"Christian attention is profoundly shocked," he said, "by the way such news is presented when that news in itself is the proper occasion for rejoicing."

U.S. May Reimburse Canada For Training Of U.S. Air Recruits

OTTAWA, May 10.—(CP)—One detail of relations between Canada and the United States is to be discussed at the Ottawa air training conference is the question whether the United States should reimburse Canada for the investment in training of U.S. air recruits.

The amount of money involved is about \$200,000 representing training costs of \$20,000 for 1,000 U.S. air recruits.

The number of United States citizens in the R.C.A.F. is about 3,500 and of these only 1,500 have applied to return to U.S. forces.

Scattered, Light Trading In Grain

WINNIPEG, May 10.—(CP)—Light demand and scattered local trade characterized grain trading in Winnipeg today. Wheat futures were steady at 60 1/2¢.

Canadian and United States mills are holding out for higher prices of wheat, but a few local transactions are being reported.

Dutch Hating Germans Says Guest Speaker

Reasons for the Dutch hating the Nazis were simply but effectively explained by Dr. B. Saget, guest of the joint meeting of the Edmonton branch of the Men's Canadian Club and the Edmonton Y.O. Club, at a luncheon meeting at the Macdonald hotel, Tuesday noon.

Dr. Saget is touring Canada relating experiences he faced prior to his escape from Holland last year. He and his two sons are in an outdoor motorboat in England. His wife and daughter are still in Holland.

Dozen Nations At Air Meeting

OTTAWA, May 10.—(CP)—

representatives of more than a dozen nations pledged to fight the common enemy against tyranny through victory gathered in the Canadian senate chamber today.

They met for the formal opening of the "second-front" training conference with the purpose of comparing notes on the fighting of one of the most potent human instruments of modern war—the young man of the world.

The purpose of the meeting was to air training is directed to actual combat in the air. Air Pilot Alvin K. Brown, president of the Air Ministry, said the purpose of the meeting was to air training is directed to actual combat in the air.

MAP SHOWS LIKELY STRIKING POINTS

Possible Routes For Invasion Of Nazi-Held Europe

Alice Taiton — in the costume of an Indian maiden — is one of the new school of tall and willowy glamor girls, who scorn the cutie-pie type of fascination. Born in Atlanta, she went to Joel Chandler Harris Girls' High school and then misguidedly aimed her career at commerce by matriculating at the Southern Business College. She never played in stock or on the professional stage and—though secretly wanting to be an actress—meant to be a secretary. Then came the Warner scout and the contract. She'll be seen next in "Warners" "Juke Girl."

Prepared to pay tribute to one of the most famous ladies of the land, Lord Halifax, British ambassador to the United States, makes the boat trip to the Statue of Liberty, gift to the U.S. from a France of a happier day.

Invasion routes to the German-held continent of Europe are marked on this map. For months now the British public has been clamoring for a second front in the west, and rumors were rife when General George C. Marshall, U.S. Army chief of staff, recently visited England, that the Americans were urging Churchill to smash at the Germans on the continent, that American troops stationed in Ireland would be thrown into the action. But whenever and wherever Britain strikes on the continent, the Commandos and troops prepared for combat by battle drill training will be in vanguard.

Red Cross Aids Little British Victims Of Nazi Blitz

Out of the blitz came these children of Britain, bombed from their homes, without a place to lay their heads, without food and with only the clothes they had on their backs. For these little people, the child-victims of total war, there must be shelter, clothes and food. The Red Cross supplies these things, but it can do so only through you. This week the Red Cross asks Canadians to give \$8,000,000. It isn't much—less than \$1 per person in all this nation. But it will do so much. It is our duty, for these children are in the front line. There are no bombs falling here. Can we do less than help?

President Grooms Philippines' Leader

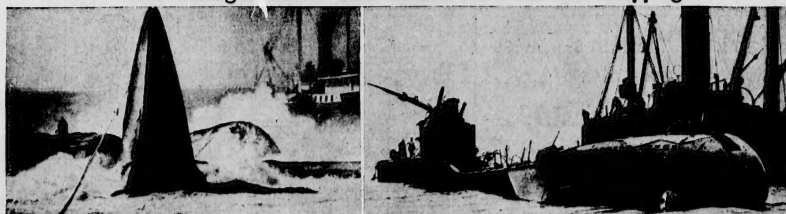

President Roosevelt is shown here as he greeted President Manuel Quezon, of the Philippine Commonwealth, when the latter arrived at the Union station, Washington. Capt. John McCres, the President's Naval Aide, is at the right.

Flying Fortress Refuels In Australia

American and Australian soldiers are shown refueling a United States Flying Fortress at the Alice Springs airbase in the interior of Australia. U.S. bombers of this type are blasting the Japanese-held bases in the South Pacific, and are reported to have taken a large part in the battle of the Coral Sea.

Two Salvaged Allied Subs Smash Hard At Axis Shipping

The U.S. submarine Squalus, left, being raised after she sank off the New England coast in the summer of 1939. In his speech, President Roosevelt stated that the Squalus has been renamed the U.S.S. Sailfish, that she "has sunk a Japanese destroyer. She has torpedoed a Japanese cruiser. She has made two torpedo hits on a Japanese aircraft carrier." H.M. submarine Thetis, being raised after it had foundered on trials in Liverpool Bay on June 1, 1939, with a loss of 99 lives, right. The Thetis was reconditioned, renamed the Thunderbolt and has done yeoman service in this war. Her latest feat was the sinking of two Italian submarines and five supply ships in the Mediterranean. The Thunderbolt is described as a "patrol type."

War Causing Reduction U. of A. Registration, Members of Faculties

On a percentage basis, registration at the University of Alberta has been better maintained during the present war than during the Great War of 1914-1918, Dr. Robert Newton, president of the University of Alberta, declared, in reporting on the institution's work, at annual convocation ceremonies on Tuesday, at McDougall auditorium.

During the Great War of 1914-1918, said Dr. Newton, student registration dropped from a high of 139 in 1914-15, to a low of 305 in 1916-17, or about 20 in two years. During the present war, the trend has again been downhill.

Starting from the peak of 1227 in 1929-30, the figure dropped to 2,268 in 1930-31 and to 2,043 in 1931-32, or a little more than 12 per cent in the two years.

Dr. Newton, in his report, dealt mainly with the University's part in the war and the survey of the institution's affairs by a special committee appointed by the provincial government.

On a percentage basis, registration has been better maintained than during the war, in part, no doubt, to the excellent policy of the provincial government that the flow of technically-trained graduates to the war effort in industry, should be actively maintained or even increased.

In support of this policy, the Dominion-Provincial fund available for grants to university students has been increased from \$4,000 to \$10,000. In the fiscal year of April 1, 1941, the department of national defence has increased its allowance for students in the two final years of medicine and dentistry to enlist and secure leave of absence to enter their studies, with pay of \$13.30 a day and except for the usual subsistence allowance of \$1 per day.

ACKNOWLEDGES GRANT
At this point, Dr. Newton acknowledged a special grant of \$10,000 from the Kellogg Foundation, Battle Creek, Mich. The grant, he said, is at low interest rate, to students in accelerated courses in medicine. The same foundation, he said, has offered aid to students in dentistry and it "seems probable that grant of \$5,000 will shortly be forthcoming for this purpose."

Dr. Newton pointed out that "there seems to be no reason why any capable student, who is willing to use his professional training in support of the country's war effort, should drop out of his university for lack of financial means."

Rise of student and staff enrolments has accelerated to such an extent that serious concern is being caused regarding future supply of technically trained men and women. Dr. Newton pointed out that a conference of university and government representatives, held at the department of National War Service at Ottawa last week, discussed a prospective requirement of 4,000 engineers and science workers in this country for the next 12 months, as compared with a normal annual output of about 600 from the universities.

AGREEMENT REACHED
It was agreed "that the armed services should continue their recruiting in the universities and that the director of national selective service should be the sole authority to guide undergraduates destined either for the armed forces or for war industries, the orientation of such students to begin as early in their course as possible."

Dr. Newton pointed out that the conference agreed that "military training was desirable for all men students but questioned whether more than two years in the auxiliary battalion was profitable for students headed for industry. In view of the fact that students enter in the C.O.T.C. for training to join the armed forces and that moreover a quota has had to be established on companies available to graduates of the C.O.T.C., it was felt that the C.O.T.C. would in future become a rather small select body and the bulk of the students get their training in the auxiliary battalion."

ADAPTED STAFF
Necessity of the university's retaining adequate staff has been recognized and difficulties of replacing staff have now become almost insurmountable. It has been agreed that staff changes in future should be subject to review by the director of national selective service. Short courses have been suggested to equip men for war jobs. Also, Dr. Newton pointed out, courses in medicine, dentistry and education have been accelerated.

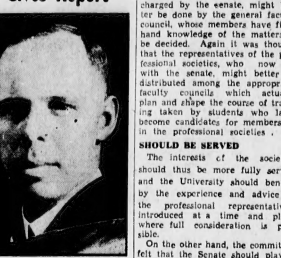

The recent Ottawa conference recognized that even under the stress of war, subjects classifying as the humanities in university training could not be neglected, and that such subjects as history and literature should be encouraged. The Rockefeller Foundation has shown its faith in the fundamental value of the fine arts by giving a grant of \$4,000 to encourage instruction in drama at the University.

It was reported by Dr. Newton that "during the past year, there has been an encouraging increase in opportunity for the research laboratories of the University to contribute to the war effort."

GIVES FIGURES
Concluding his reference to the part being played by the University in the war effort, Dr. Newton declared that "I must report with pride, the large number of technical graduates and staff, who are serving in the active forces. Our figures are necessarily incomplete, as many graduates, especially the older ones, have not kept close touch with us. Moreover, a number of enrolments from this year's C.O.T.C. are just now pending."

"Enrolments of which we have a good record to the end of 1941, are, including class of 1942, 2601."

Gives Report

Dr. Robert Newton, newly-appointed president of the University of Alberta, who gave his annual report at the convocation ceremony at McDougall Auditorium Tuesday afternoon.

The committee also gave hearty assent to the many submissions recommending intensification of the university's extension work throughout the province.

OVERCROWDING NERVOUS
Overcrowding of classrooms and laboratories was found to be serious, resulting from lack of adequate physical plant for 30 years during which the student population practically doubled, and the committee recommended a building program spread over 10 years. It also urged adherence to the salary schedule set up 12 years ago, in order to protect the morale of the staff and make it possible to keep the good young men.

The committee pointed out the need for utilization of the teacher-training system within the province, also for better integration of the high school and university programs.

Steps have already been taken to harmonize the entrance requirements to normal schools and the faculty of education, and to facilitate transition from the one to the other.

It is also proposed that beginning with the autumn of 1942, entrance to the Faculty of Arts and Science will be on a broad-based program designed to make more use of the wide range of courses now available in many high schools.

WOMEN'S HOSE
Fine cotton hose for women in various shades. Size 36 to 44. WEDNESDAY HALF-DAY SPECIAL, PAIR, 39c

Combinations
Cotton halbergen combinations—short sleeves, ankle length. Buttoned front. Size 36 to 44. WEDNESDAY HALF-DAY SPECIAL, SUIT, 89c
